

Model # 010

1/2" Conduit
Connector

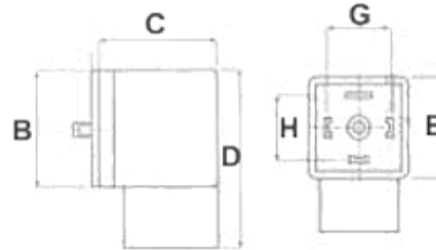

Electrical connection to a Granzow solenoid valve is via a DIN connector. The connector plugs onto the spades of the coil, and a profile gasket ensures a NEMA 4 water-tight connection.

Granzow offers three types of DIN connectors: cable grip connectors, 1/2" conduit connectors, and a 6-foot power cord connector. This model (010) is a 1/2" Conduit Connector.

Connector Dimensions

Height (B):	1-3/32"
Length (C):	1-1/16"
Height (D):	1-5/8"
Height (E):	1-3/32"
Width (G):	18mm
Height (H):	18mm
